- Waterproof and rechargeable

System Includes:

- Adjustable Collar with waterproof coating
- Digital Remote with backlit display
- Long and Short Contact Points
- Universal charging adaptor
- Test Light Tool
- Quick Start Guide

How It Works:

Using the Remote Trainer you can easily improve the communication between you and your dog. The Remote sends a signal activating your dog's training collar. With three training options, tone, vibration and static stimulation, you can ensure you will have a well-trained dog in a short amount of time.

The 300 Metre Remote Trainer provides communication with your dog at medium distances – Great for around the house and in the garden training.

The 600 Metre Remote Trainer and 900 Metre Remote Trainer provides communication with your dog at long distances – Great for any walk, run or outdoor activity.
