

5 Meal Pet Feeder

Breakfast, lunch, dinner and treats too – the PetSafe® 5 Meal Pet Feeder feeds your pet right on time. This battery operated feeder serves up to 5 meals or treats a day. Setting mealtimes is easy using the digital clock. Once the schedule is set, your pet's meals or treats are automatically served at the same time each day. The food tray has 5 sections, each holding up to 1 cup of dry or semi-moist food. When you fill the tray, the first meal or treat is ready-to-eat and the other 4 are fed at their scheduled times. For easy clean up, simply remove the tray and place it in the dishwasher.
